募集要項

Join a leading entertainment technology group as a Producer, bridging business and engineering to deliver innovative ticket and NFT services. This role offers broad exposure to the entertainment sector and the chance to drive impactful projects from concept to launch.

Client Details

Our client is a prominent player in the entertainment and technology space, dedicated to developing advanced ticketing and NFT solutions. The team is passionate about connecting fans with unforgettable experiences across music, movies, anime, and professional sports.

Description

As a Producer within the Ticket Service Development Group, you will act as a key liaison between business and engineering teams. Your responsibilities include organizing and analyzing client and business requests, planning new features, creating requirements and design documents, and managing the progress and quality of development projects. You will coordinate

with stakeholders, oversee operational improvements, and ensure the successful delivery of high-traffic web services. The position is based in Tokyo.

Job Offer

- Opportunity to work at the intersection of entertainment and technology
- Broad exposure to music, movies, anime, and sports industries

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Anna Fuji on +81366276095.

スキル・資格

- Over 5 years of experience in internet service

- Experience in PDM/PJM (task management - progress and coordination) or experience as an engineer leader and want to aim for PDM or PJM.

- Native-level Japanese and conversational English (TOEIC ~600)
