募集要項

【job Responsibilities】

- Own and manage large, complex programs or multiple projects across product and engineering teams.
- Define program vision, mission, success metrics, and drive measurable outcomes.
- Partner with engineering leaders to ensure architectural scalability and alignment with business goals.
- Influence roadmap planning, prioritization, and resource allocation across functions.

- Anticipate risks, resolve ambiguity, and mitigate potential roadblocks before they escalate.
 - Drive alignment between business and technical stakeholders through structured discussions and crisp decisions.
 - Oversee cross-team collaboration, ensuring effective execution, quality, and delivery.
 - Streamline processes, reduce dependencies, and foster innovation by removing architectural or operational bottlenecks.
 - Regularly review metrics and create mechanisms for visibility into progress, risks, and outcomes.
 - Communicate effectively with senior leadership (Directors, VPs, Founders, Investors) via narratives, roadmaps, and status reports.
 - Mentor and guide peers, engineers, and managers; contribute to building a culture of high performance and collaboration.
