募集要項

Job Description:

- Data Analyst for Home Appliance Products – Identifying market trends and patterns through data analysis and building smooth with factory ISPs.
- Collecting, visualizing, and analysing various data (sales, inventory, shipment, etc.).
- Using BI tools (e.g., Power BI, Tableau) to analyse trends and patterns by country, region, and model.
- Collaborating with the factory side (e.g., Formulating PSI plans and reflecting analysis in inventory management.)

Job Requirement:

- Degree holder, preferably in Business, Supply Chain Management or related disciplines.
- Experience in data analysis (industry/product background nor required, but home appliances/manufacturing industry is preferred.)
- Skills in data visualization and reporting using Excel and BI tools (Power BI, Tableau, etc.).
- Strong logical thinking and ability to identify issues/trends and propose improvements based on data.
- Ability to communicate and collaborate smoothly in English with internal and external stakeholders.
- A passionate individual who can proactively drive sales maximization based on their own analysis.
