募集要項

Company Overview

Our client is a IT product company of Japan

Job Description

- Work directly with Japanese clients and stakeholders to gather, analyze, and clarify business and technical requirements.
- Act as the main communication bridge between the Japanese client and the Vietnam development team, managing all project-related Q&A.
- Collaborate with the Project Manager to manage project progress, deadlines, and ensure the final product meets the client's expectations.

Requirements

- Having at least 2 years of experience in software development

- More than 2 years of BrSE (JLPT N2)
- Experience in deploying applications on STG and PRD environments
