募集要項

About the Role:

Role: Assistant Manager- QC

We are seeking a seasoned Quality Control professional to join a leading manufacturing company in the construction machinery industry. If you have a strong QC/QA background, expertise in welding processes, and experience in Japanese manufacturing, this is the perfect opportunity to elevate your career.

Key Responsibilities:

- Lead QC/QA operations and ensure compliance with industry and Japanese quality standards.
- Oversee quality control in construction machinery manufacturing.
- Conduct welding quality assessments and enhance welding processes for optimal performance.
- Collaborate with Japanese stakeholders to maintain seamless communication and quality expectations.
- Guide and mentor junior QC team members, supporting team expansion.
- Travel to Japan (1-2 times per year) to deepen understanding of Japanese-level quality.

Required Experience & Skills:

- 5-8 years of experience in QC/QA roles within the manufacturing sector.
- Work experience in a Japanese company.
- Strong knowledge of quality control in construction machinery.
- Expertise in welding processes and related quality assurance.
- Ability to lead, mentor, and expand the QC team.
