募集要項

Position: QA MANAGER

Business: Manufacturing of Steel Products

Location: Samutprakarn

Salary: 70,000 – 90,000 THB

Responsibilities

- Define policies, plan, and oversee the quality management system in accordance with metal industry standards such as ISO 9001, ISO 14001, IATF 16949, and customer-specific standards in the automotive or construction sectors.
- Control the quality of raw materials, cold rolling processes, wire drawing, and finished products such as wire, sheets, and wire profiles to meet required standards (JIS, ASTM, DIN).
- Analyze quality issues and establish corrective and preventive actions (CAPA / 8D Report / Root Cause Analysis) in collaboration with production and engineering teams.
- Monitor and follow up on internal audit systems and ensure readiness for customer and external certifications.
- Develop quality documentation systems, flow process control, control plans, FMEA, MSA, SPC, and inspection standards tailored to steel manufacturing processes.
- Manage QA/QC teams across incoming, in-process, and final inspections, including metallurgical and chemical

laboratories.

- Coordinate with domestic and international customers regarding product quality, complaints, and corrective actions.
- Present regular quality KPI reports to management, including % Reject, Customer Claims, Line Yield, and First Pass Yield.

Qualifications

- Bachelor's degree or higher in Metallurgical Engineering, Materials Science, Industrial Engineering, or a related field.
- Minimum of 10 years of experience in QA/QC within metal/steel/stainless steel manufacturing, with at least 3 years in a supervisory or managerial role.
- Strong knowledge of ISO 9001, ISO 14001, IATF 16949 systems and their application in cold-rolled steel industries.
- Demonstrated leadership skills with the ability to manage teams and foster cross-functional collaboration.
- Good command of English, both spoken and written, for communication with international clients.
