募集要項

Company and Job Overview

A reputable manufacturer in the motor vehicle parts industry is currently seeking a driven and dedicated **Die Casting Engineer** to join their pioneering team.

In this role, you will be responsible for overseeing production operations, ensuring quality standards, managing equipment and safety protocols, controlling costs, and leading the team effectively.

Job Responsibilities

- Allocate manpower, equipment, and materials to meet production schedules and targets.
- Enforce die casting standards, conduct inspections, and optimize workflows for quality and stability.
- Implement 5S practices to maintain a clean, safe, and organized environment.
- Establish quality control systems, resolving casting defects, overseeing equipment maintenance, and ensuring workplace safety.
- Monitor production costs, optimizes material usage, fosters team communication and morale, and upholds company

policies to ensure smooth and efficient operations.

Job Requirements

- Diploma or higher in Material Forming and Control Engineering, Mechanical Manufacturing and Automation, Die Casting Technology, or other related disciplines is preferred.
- Minimum 5 years of hands-on experience in the die casting industry, with a strong grasp of the full production cycle and workshop management practices.
- Solid knowledge of die casting equipment and mold structures, with practical experience in equipment maintenance, troubleshooting, and repair coordination.
- Strong analytical skills in cost control and production efficiency optimization.
- Proficient in Microsoft Office applications (Excel, Word, PowerPoint) for data reporting, analysis, and presentation.
