### 募集要項

#### Company Overview

Our client a leading engineering company with a significant global presence. They specialize in a broad range of electrical, mechanical, and telecommunications engineering services for various sectors, including building, industrial, and infrastructure projects. As they continue to drive growth and expansion, they are now seeking a Senior Mechanical Engineer, ACMV, to join their team and contribute to their ongoing success.

#### Key Responsibilities

- Implement and manage quality control procedures for ACMV and mechanical works, ensuring adherence to the highest standards.
- Conduct thorough inspections, audits, and testing of materials, equipment, and site installations.
- Review and verify shop drawings, material submittals, and method statements for compliance with project specifications and industry best practices.
- Proactively monitor and ensure workmanship consistently meets design specifications and stringent quality standards.
- Prepare detailed non-conformance reports (NCRs), issue corrective action requests, and meticulously follow up until resolution and closure.
- Act as a key liaison with consultants, clients, and subcontractors, effectively addressing and resolving any quality-related issues.
- Maintain accurate and comprehensive quality documentation, including inspection reports and test records.

- Provide essential support during handover and commissioning phases, ensuring all quality requirements are fully met.

#### Key Requirements

- Degree/Diploma in Mechanical Engineering, Building Services, or a closely related discipline.
- A minimum of 6–8 years of direct experience in quality control specifically for ACMV/mechanical works within large-scale construction projects.
- In-depth knowledge of ACMV systems, mechanical equipment, and established QA/QC procedures.
- Comprehensive familiarity with relevant codes, standards, and regulatory requirements in Singapore.
- Exceptional attention to detail, coupled with strong analytical and problem-solving abilities.
- Excellent communication and coordination skills to effectively collaborate with diverse stakeholders.
- Experience with large industrial or infrastructure projects is highly preferred.

Apply online or feel free to contact me directly for more information about this opportunity. Due to the high volume of applicants, we regret to inform that only shortlisted candidates will be notified. Thank you for your understanding.
