募集要項

A Global IT service firm is looking for several talented and experienced **Test Automation Engineers**.

This QA team is responsible of the Quality Assurance of the Commerce Department services. You can be involved in leading e-commerce services, and develop your skills in a global environment.

Responsibilities:

- Work closely with test engineers and development teams to define and improve the test automation architecture
- Test automation architecture design/operation
- Design and operate original test automation framework
- Design and operate CI/CD environment
- Assign and review tasks to team members (including outsourced members)
- Design test automation scripts for UI, API, and web applications
- Implementation of test automation scripts
- Operation of test automation tools
- Verification and Analysis of test results
- Test result reporting

Why You Should Apply:

- A rewarding role at global company, where you'll help transform cutting-edge AI technologies into business value and drive their expansion into global markets
- Diverse and international environment committed to equal opportunity, offering a wealth of career opportunities
- Chance to handle a wide range of technologies
- Meals in the company cafeteria are free. Our chefs are always coming up with new menu items!

Company Details:

A global company with a strong presence in multiple business areas. It has achieved sustained growth both domestically and internationally, including in the U.S. and Europe. The company boasts a diverse and international environment and is committed to equal opportunity, offering a wealth of career opportunities. Due to the diverse nature of our business, we handle a wide range of technologies! You can also choose the environment you are most comfortable with, such as Windows/Mac! Meals in the company cafeteria are also free. Our chefs are always coming up with new menu items, so you can enjoy your meal without getting bored!

Working hours: 9:00 - 17:30 (Mon-Fri)

Working Style: Hybrid (4 days in office, 1 day work from home)

Holidays: Saturday, Sunday, and National Holidays, Year-end and New Year Holidays, Paid Holidays, Other Special Holidays

Services/Benefits: Social insurance, Pension Plan, Transportation Fee, Free Cantine, Casual clothes and more

スキル・資格**Require skills:**

- Over 3 years of experience in test automation development / implementation
 - Any language is fine, but having experience of using some testing middleware or framework is required (ex; Junit / Test::Unit / unit test / Selenium / Cypress)
 - Backend knowledge + application testing experience
 - Experience in developing / designing / implementing UI & API tests
 - Willing to tackle new challenges and drive improvements
 - A good team-worker who promotes team-working culture within and outside of the team
-
