募集要項

Location: HQ – Mid Valley, Kuala Lumpur**Employment Type:** Permanent**Seniority Level:** Mid-Senior

Senior Electrical Manager Role Overview

As a Senior Electrical Manager, you will lead the design of high, medium, and low voltage electrical distribution and generation systems. This includes creating single line diagrams, electrical load lists, cable sizing, and designing for lighting and small power systems.

The ideal candidate has a strong background in electrical engineering with 8 years of experience in design, cost estimation, and tendering processes. Proficiency in electrical design standards and engineering authority requirements is also necessary.

- Lead the design of electrical distribution and generation systems
- Provide technical advice on relevant engineering authority standards
- Attend technical discussions and meetings to explain project specifics
- Liaise with authorities and consultants for site inspections and approvals
- Prepare project budgets, margins, and calculations
