募集要項

Company Overview

Our client a leading engineering company with a significant global presence. They specialize in a broad range of electrical, mechanical, and telecommunications engineering services for various sectors, including building, industrial, and infrastructure projects. As they continue to drive growth and expansion, they are now seeking a Site Manager, to join their team and contribute to their ongoing success.

Key Responsibilities

- Manage and supervise daily ACMV site activities, including installation, testing, and commissioning.
- Coordinate with subcontractors, consultants, and internal teams to ensure smooth execution of works.
- Monitor project schedules, manpower allocation, and material delivery to meet milestones.
- Ensure compliance with design specifications, quality standards, and workplace safety regulations.
- Resolve site-related technical and coordination issues promptly.

- Conduct regular site inspections and prepare progress reports for management.
- Provide guidance and support to site engineers, supervisors, and workers.

Key Requirements

- Diploma/Degree in Mechanical Engineering, Building Services, or related discipline.
- Minimum 5–8 years of ACMV site management experience in large-scale construction projects.
- Strong knowledge of ACMV systems installation, testing, and commissioning.
- Good understanding of local codes, standards, and safety regulations.
- Proven ability to manage subcontractors and coordinate across multiple stakeholders.
- Strong leadership, communication, and problem-solving skills.

Apply online or feel free to contact me directly for more information about this opportunity. Due to the high volume of applicants, we regret to inform that only shortlisted candidates will be notified. Thank you for your understanding.
