募集要項

COMPANY OVERVIEW

A leading innovator in advanced materials is seeking a skilled and detail-oriented Laboratory Technician to support the development and testing of carbon fiber composites. This role is ideal for someone with a strong technical background and hands-on experience in laboratory environments.

JOB RESPONSIBILITIES

- Perform mechanical, thermal, and chemical testing on carbon fiber samples.
- Operate and maintain laboratory instruments such as tensile testers, calorimeters, and microscopes.
- Accurately document and analyze test results, sharing insights with engineering and production teams.
- Support the development of new resin systems and carbon fiber configurations.
- Work closely with engineers to resolve production challenges and enhance product specifications.

- Uphold safety standards and maintain a clean, organized laboratory environment.

JOB REQUIREMENTS

- Diploma in Materials Science, Chemical Engineering, or a related field.
- 2–3 years of relevant experience in a laboratory or manufacturing setting, preferably involving composite materials.
- Skilled in using laboratory equipment and applying testing methodologies.
- Strong analytical abilities and keen attention to detail.
- Effective communicator and team player.

Working Location: Singapore
