募集要項

Company Overview

A leading global technology enterprise is seeking a Bridge & Lead Software Engineer (Japanese speaking, AWS) to join.

Job Description

- Act as Lead & Bridge Software Engineer, summarizing tasks, leading the project (Technical Lead), and serving as a liaison between the Vietnamese team and the Japanese development department.
- Develop and maintain cloud service-related software or Windows applications for MFP (Multi-Function Printer) data handling and IT device management (PC, Server, Mobile).
- Perform debugging and evaluation of MFP-related cloud services/software using actual devices or simulators.
- Ensure high-quality, standards-compliant software development.
- Lead project planning, operations, and quality assurance.

Job Requirements

- Bachelor's degree in Computer Science or related field, or equivalent experience.
- At least 3 years of management experience in software development or 5+ years as a software engineer.
- Japanese proficiency at N2 level or higher.
- Intermediate English (speaking, listening, writing).

- Strong communication and collaboration skills.
