募集要項

Manufacturing and assembly of refrigerant piping for commercial air conditioning systems.
Production of heat exchangers for water heaters and related equipment.

Job Title: Production Control Manager (Japanese Speaking)

Business Type: Manufacturing

Location: Bangsaothong, Samut Prakarn

Job Type: Full-Time, Monday-Saturday, 08:00-17:00 hrs. (1 time leave for Saturday/month)

Responsibilities:

- Production Planning & Scheduling:
 - Develop and manage the Master Production Schedule (MPS) based on sales forecasts, customer orders, and raw material availability for both the piping assembly and heat exchanger lines.
 - Translate the MPS into detailed Material Requirements Planning (MRP) and daily production schedules.
- Inventory Management:
 - Oversee inventory levels for key materials, including copper and aluminum tubing, fittings, brazing materials, and components used in heat exchanger fabrication.
 - Implement and manage strategies (e.g., Kanban, JIT) to minimize excess inventory while ensuring sufficient stock to prevent production downtime.
- Capacity Planning:
 - Analyze and monitor current production capacity for critical processes (e.g., tube bending, welding/brazing, coil winding, assembly) and recommend adjustments to equipment or staffing to meet fluctuating demand.
 - Identify and resolve production bottlenecks and scheduling conflicts.
- Logistics and Flow Control:
 - Coordinate the flow of materials from procurement to the production floor and through assembly and final staging.
 - Collaborate with the QC Manager to schedule inspection points without disrupting the production cycle.
- System Management and Reporting:
 - Maintain and optimize data accuracy within the Enterprise Resource Planning (ERP) or Material Requirements Planning (MRP) system.
 - Generate and present key performance indicators (KPIs) related to production efficiency, schedule adherence, and inventory turnover.

Qualifications:

- Good command of Japanese (N3 or above) and English.
- Bachelor's degree in Engineering, Industrial Management, or related field.
- Minimum 10 years of experience in manufacturing operations, with at least 5 years in a production planning/control managerial role.
- Proven proficiency with ERP/MRP systems (e.g., SAP, Oracle, Dynamics) and MS Office Suite.
- Familiarity with ISO standards and Lean Manufacturing principles.
- Experience in HVAC, Refrigeration, or Heat Exchanger manufacturing is a strong advantage.
- Demonstrated strong leadership, analytical, and problem-solving skills.

Benefits:

- Housing allowance 600 THB/Month
- Diligence allowance 700-900 THB/Month (after probation)
- Food allowance 20 THB/Day
- Shift allowance 60 THB/Day
- Shuttle bus (Flat, Kheha, Bangbo, Bangchalong) (If other routes will be paid of transportation allowance 30 THB/Day)
- Transportation allowance for using private car for business trip (if company car is not available), Bangkok and perimeter area 5 THB/KM., upcountry 6 THB/KM

- Annual Leave 6-8 days/year (after completed work for 1 year)
- Training Leave 30 days/year
- Social Security
- Company party
- Annual Health Check-up
