募集要項

Job Responsibilities

- Manage and oversee HVAC projects from planning to completion, ensuring compliance with specifications, timelines, and budgets.
- Design and plan HVAC systems for industrial and commercial facilities, including cleanrooms and utility systems.
- Coordinate with cross-functional teams (design, construction, procurement) and liaise with clients, consultants, and contractors.
- Prepare technical documentation, including drawings, specifications, and reports.
- Conduct site inspections to monitor installation, testing, and commissioning of HVAC systems.
- Ensure adherence to industry standards, safety regulations, and environmental guidelines.
- Provide technical support and troubleshooting during project execution.

- Maintain accurate project schedules, cost control, and progress reports.

Job Requirements:

- Bachelor's Degree in Civil Engineering or related field.
- 3–5 years of experience in HVAC project engineering or C&S contracting.
- **Hands-on experience in HVAC projects for factories and warehouses.**
- Excellent communication and coordination skills.
