募集要項

A leading beverage manufacturer is seeking a QA Specialist. The selected candidate will oversee product quality assurance and continuous improvement initiatives across the Japan market.

A leading beverage manufacturer that has a long history of remarkable reputation and a large portfolio of brands. Headquartered in the US, this company has seen successful global expansion with consumers all around the world.

Keywords:

インダストリアル, メーカー, 製造業, 機械, エンジニア, 求人, 求人, 外資系

Job Ref: D5XK1L

Responsibilities:

- Manage and optimise quality verification and inspection processes for new and existing products
- Coordinate with 3PL teams to ensure accurate execution of quality protocols and regulatory compliance
- Collaborate with global and partner QA teams to resolve product issues and handle complaint investigations
- Analyse quality data, maintain documentation, and prepare management reports including destruction records
- Monitor warehouse operations through regular site visits and support corrective actions to reduce product destruction
- Support claim management and product recalls while safeguarding against counterfeit activity

Requirements:

- Bachelor's degree or above Food Science, Chemistry, Biology, or other related fields
- More than 6 years of quality leadership experience in the food, alcohol, packaging, or consumer goods industry
- Knowledge with SAP, Microsoft or Google office tool
- Familiarity with spirits production processes and quality control
- Fluent level spoken and written English and Japanese

会社説明

We've been a driving force in the Japanese bilingual recruitment market, providing high quality candidates for our clients and access to the best jobs for over 20 years. We operate a team-based profit share system which, we believe, sets us apart from the majority of competitors by enabling us to always put the interests of our clients and candidates first. That means we can find the best fit for employer and job seeker, and we never push people into unsuitable roles.
