## 募集要項

### Key Responsibilities:

- Plan and execute IT projects, including both software and hardware, to support our BNPL business expansion.
- Manage and oversee the IT team, including skill development, performance evaluation, and new staff recruitment.
- Work closely with other departments to understand technological needs and develop appropriate solutions.
- Ensure cybersecurity and data protection for the company.
- Manage the IT budget and ensure technology investments yield the highest returns.

### Job Requirements:

- Relevant degrees in information technology.
- Over 3 years of experience as Head of IT
- More than 7 years of experience in the relevant industry
- Strategic thinking skills, with the ability to combine technical and business perspectives to translate business needs into IT solutions.
- Strong leadership and communication skills, capable of leading a team, and effectively communicating with other departments and stakeholders.
- Manage and provide direction for the application development team in support of business operations.

- Provide technical leadership to project managers and programmers working on development project teams.
- Have systems architecture ownership experience, particularly for a financial company and keen insights regarding technology and business trends
- Good project management skills and/or substantial exposure to project-based work structures, project lifecycle models, etc.
- Plan and manage IT budgets, encompassing both CAPEX and OPEX.
- Expand expertise in IT infrastructure and operations
- Experience in managing IT projects and a broad understanding of modern technologies.
- Ability to assess and implement new technology solutions.
- Experience working in a multicultural environment and business English communication skills.

Advantages:

- Experience in a similar industry such as Financial and Fintech industries or understanding of BNPL industry.
- IT industry certifications such as PMP, ITIL, or security certifications.
