About the Company

Our client is a well-established Japan-based manufacturer operating in the consumer products sector, with a strong domestic footprint and increasing involvement in cross-border business activities. The company combines a stable operating base in Japan with international group connectivity and is currently strengthening its corporate and legal foundations to support long-term growth and governance excellence.

The organization values practical expertise, collaboration, and leadership, and is seeking a senior legal professional to take ownership of legal matters for its Japan operations while acting as a key counterpart to overseas stakeholders.

Key Responsibilities

This is a senior leadership role with broad responsibility for legal matters across the Japan business.

- Act as the senior legal representative for the Japan entity, reporting into an overseas legal leadership structure

- Oversee all legal matters in Japan, including:
 - Commercial and contract law
 - Labor law and employee relations
 - Corporate governance and compliance
 - Regulatory and risk-related matters
 - Lead complex legal discussions with overseas stakeholders, balancing cultural sensitivity with firm legal judgment
 - Advise senior management on strategic legal issues, particularly those involving cross-border structures and transactions
 - Provide legal guidance on:
 - Transfer pricing matters
 - Permanent establishment (PE) considerations
 - Cross-border and intercompany arrangements
 - Manage, mentor, and develop a small in-house legal team
 - Strengthen and standardize legal frameworks, policies, and processes within the Japan organization
-

スキル・資格

Required Qualifications

- Fluency in Japanese and business-level English (both required)
- Strong grounding in Japanese law, gained through in-house and/or relevant professional experience
- Proven experience working with overseas headquarters or international stakeholders
- Ability to manage complex, high-level discussions with senior management
- Demonstrated leadership capability and strong interpersonal skills
- Experience in a multinational or cross-border corporate environment

Preferred

- Additional Asian language capability (e.g., Chinese)
 - Experience within manufacturing, industrial, or consumer product companies
