募集要項

Our client delivers advanced engineering and construction solutions for the semiconductor, LCD, and cleanroom sectors, providing expertise in system integration, automation, and turnkey project execution. In addition, the company serves as an authorized distributor of high-quality process equipment, consumables, and healthcare products, including medical devices

Job Responsibility

- Manage day-to-day activities related to project execution and coordination.
- Develop and deliver precise 3D models to support design requirements.
- Prepare detailed drawings for construction and facilities management purposes.
- Collaborate with site teams and contractors to address and resolve project issues promptly.
- Maintain accuracy, consistency, and compliance of BIM models throughout all project phases.

Job Requirements

- Friendly, positive attitude with excellent communication skills.
- Bachelor's degree in M&E Engineering or a related discipline.
- Strong technical proficiency in 3D modelling and project coordination.
- Minimum of 1 year of industry experience as a BIM Modeller.
- Skilled in BIM software, including Autodesk Revit and AutoCAD.
