募集要項

COMPANY OVERVIEW

leading provider of end to end data centre infrastructure solutions is seeking a **Sales Engineer** to join the team. This role involves driving sales growth in domestic markets by building strong customer relationships and delivering tailored solutions to meet client needs.

JOB RESPONSIBILITIES

- Grow sales opportunities by identifying and developing business in critical applications and data centre infrastructure.
- Meet revenue and sales targets, including cross-selling and upselling solutions to customers.
- Create and manage account plans to support strategic goals such as revenue growth and market expansion.
- Maintain accurate sales pipeline updates, including forecasts and customer buying plans.

- Build strong customer relationships and lead proposal creation, negotiations, and deal closure.

JOB REQUIREMENTS

- Bachelor's degree in engineering or a related technical field.
- At least 5 years in technical sales, including 3 years in power distribution or cooling systems.
- Strong knowledge of data centre infrastructure (power, cooling, racks, monitoring software).
- Familiar with IT systems such as servers, networks, storage, databases, or cloud technologies.
