募集要項

A leading provider of innovative connectivity solutions, specializing in the design and manufacture of cables, wire harnesses, and interconnect solutions for diverse industries including automotive, consumer electronics, and industrial applications. Our client is currently seeking a Manufacturing Manager with strong knowledge in Box Build to join their esteemed organization.

Job Descriptions

- Manage end-to-end box build manufacturing including assembly, integration, test, and shipment of semiconductor equipment.
- Ensure production efficiency, quality, cost, delivery, and safety targets are met while driving continuous improvement, capacity readiness, and compliance with Semiconductor industry standards.
- Collaborate with Engineering, Quality, and Supply Chain on DFM, ECO implementation, and material readiness.
- Track and monitor key KPIs, including on-time delivery, first-pass yield, cycle time, and productivity.
- Lead Lean, Kaizen, and Six Sigma initiatives to improve quality productivity, yield, and cost.

Job Requirements

- Bachelor's degree in Engineering or related field.
- Min 8–12 years of manufacturing experience, with at least 3–5 years in a management role.
- Metal box build assembly experience, such as Power Box, PDU, semiconductor industrial metal box build assembly.
- Understanding of metal welding, coating, plating, and metal box build product drawing requirements.
- Understanding of box build electrical, functionality testing equipment, and procedure.
- Experience in Lean Manufacturing principles, process improvement methodologies & problem-solving skills
- Experience with high-mix, low-volume production environments.
- Experience in using AutoCAD, SolidWorks, CATIA, Creo software.
- Strong proficiency in GD&T is required.
