募集要項

Company and Job Overview
A technology-driven organization is seeking an AI Team Leader to lead its core AI team in developing foundational AI/ML capabilities. The role covers end-to-end involvement in AI initiatives, from concept to production, contributing directly to impactful real-world AI solutions.

Job Responsibilities

- Lead and mentor AI engineers in researching and developing advanced AI/ML models, especially Generative AI.
- Collaborate with product, engineering, and business teams to integrate AI into internal and customer-facing platforms.
- Design scalable and robust AI system architectures.
- Propose new AI initiatives and ensure alignment with the latest industry trends
- Coach junior team members to strengthen internal AI expertise.

Job Requirements

- Bachelor's degree in Computer Science, Artificial Intelligence, or related field.
  5+ years of AI/ML development experience, including min 2 years in technical leadership.
- Proficiency in Python and frameworks such as TensorFlow, PyTorch, HuggingFace, or LangChain.
- Experience deploying AI models in production.
- Familiarity with NLP, Computer Vision, LLMs, RAG, and prompt engineering.]
- Strong communication in English, leadership, and system-thinking skills
- Experience with AI APIs
- Experience building AI systems in cloud environments (AWS, GCP, Azure).

Benefits

- Competitive and attractive salary, including performance bonus
- Flexible work-life balance with one remote day per week.
- 13th–14th month salary and regular performance-based salary reviews.
- Professional development support, including sponsorship for AI training, courses, and workshops.
- Standard social and health insurance benefits under local labor regulations

Due to the high volume of applicants, we regret to inform that only shortlisted candidates will be notified. Thank you for your understanding.
