募集要項

The candidate will be responsible for designing, implementing, and maintaining data pipelines and architectures within the business services industry. This role requires a technical expert who is passionate about data and thrives in creating efficient solutions.

Client Details

The hiring company is a respected entity within the business services industry, known for its focus on innovative technology solutions. They are a medium-sized organization with a strong commitment to excellence and technical precision.

Description

- Design, build, and maintain scalable data ingestion pipelines using Kafka from relational and NoSQL data sources.
- Implement large-scale data processing and transformation using Apache Spark (PySpark or Scala) on GCP.
- Develop analytical data models and optimized SQL for reporting and analytics in BigQuery, ensuring data quality and performance.
- Monitor, optimize, and operate data pipelines with a focus on reliability, scalability, CI/CD, and cost efficiency.

Job Offer

- Opportunity to work on innovative projects within the business services industry.
- Collaborative and supportive working environment in the technology department.

This is an excellent opportunity for a skilled Senior Data Engineer to make a significant impact. Interested candidates are encouraged to apply today!

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Serina Miyazono on +81 3 6627 6130.

スキル・資格

A successful Senior Data Engineer should have:

- Proven experience as a Data Engineer building large-scale data pipelines using Kafka and Apache Spark (PySpark or Scala).
- Strong hands-on expertise with GCP, particularly BigQuery, Dataproc, Dataflow, and cloud-based data architectures.
- Excellent SQL skills with solid understanding of data modeling, ETL/ELT processes, and analytics-ready datasets.
- Engineering mindset with experience in CI/CD, testing, monitoring, and Git-based development, ensuring data quality and reliability.

会社説明

The hiring company is a respected entity within the business services industry, known for its focus on innovative technology solutions. They are a medium-sized organization with a strong commitment to excellence and technical precision.
