募集要項

COMPANY OVERVIEW

A well-established technology services company delivering IT solutions, infrastructure support, and outsourced operational services. It works with clients across various sectors to enhance efficiency and strengthen digital capabilities.

JOB RESPONSIBILITIES

- Maintain accurate system procedures and project documentation
- Assist with project planning, schedules, and delivery tracking
- Monitor progress, flag risks, and support mitigation actions
- Prepare project status updates for management and stakeholders
- Support and coordinate project meetings and communications

- Partner with PMO on system upgrades and technology refresh initiatives
- Complete assigned project tasks within agreed timelines
- Support stability and operations of in-scope systems
- Coordinate and support end-to-end testing with test teams
- Ensure system configurations meet regulatory and compliance requirements
- Track vulnerabilities and ensure timely remediation
- Collaborate with internal teams and external vendors
- Provide timely updates and escalations to project leadership
- Engage with business users for testing support and issue resolution

JOB REQUIREMENTS

- Degree or diploma in IT or related field
- Atleast 2 years' experience in IT within banking or financial services
- At least 2 years' experience supporting project delivery
- Familiarity with MAS Technology Risk and Cyber Hygiene standards
- Basic knowledge of system infrastructure (OS and middleware)
- PMP or project certification is good to have
- Strong vendor coordination and stakeholder management skills
