募集要項

Manufacturing precision components specializing in precision cutting technologies, particularly in the automotive sector, with a significant market share in throttle shafts.

Qualification

- Bachelor's degree in Engineering (Mechanical, Industrial, Automotive, or related field).
- Minimum 3–5 years of experience in PPAP preparation within the automotive industry.
- Strong knowledge and hands-on experience with IATF 16949 requirements
- Familiarity with APQP, FMEA, MSA, SPC, and Control Plans

<u>Job Description</u>

- Develop, compile, and submit complete PPAP documentation for new model components.
- Ensure compliance with customer-specific requirements and IATF 16949 standards.
- Coordinate with suppliers and internal teams to validate part readiness.
- Implement and maintain IATF 16949 processes across new product development.
- Conduct risk assessments, FMEA, and control plan reviews.
- Support audits and customer reviews related to PPAP and quality systems.
- Work closely with design, manufacturing, and supplier quality teams to ensure smooth product launch.
- Provide technical guidance on quality requirements to suppliers and internal stakeholders.
- Drive corrective actions and continuous improvement initiatives.
- Maintain accurate records of PPAP submissions, approvals, and deviations.
- Prepare reports and presentations for management and customers.
