募集要項

COMPANY OVERVIEW
Our client is Manufacturing company looking for the FACA ENGINEER (Failure Analysis Corrective Action) position.

Work Location: Vsip II (Binh Duong)

JOB RESPONSIBILITIES

- Monitor production yield performance.

- Perform trouble shooting for defective products at automation testing and manual inspection processes, using appropriate diagnostic tools and methodologies.

- Analyze production and test data to identify trends, recurring issues, and potential risk areas.

- Use statistical tools (e.g., Pareto analysis, control charts, regression analysis) to support failure investigations and

drive data-based decision making.

- Develop and implement effective corrective and preventive actions (CAPA) to eliminate root causes and improve overall product reliability.

- Prepare detailed failure analysis reports and communicate findings and solutions clearly to internal stakeholders and external customers.

- Propose, collaborate, and lead improvement initiatives in terms of quality perspective.

- Coordinate with relevant departments and suppliers to ensure rapid resolution of issues and continuous process improvement.

- Support customer audits, quality reviews, and improvement initiatives as needed.

JOB REQUIREMENTS

- Bachelor's degree in engineering or related background.

- Minimum of 1-2 years of experience in a production or manufacturing environment, with a focus on quality management, quality improvement.

- Proficiency in English Toeic 600 above (additional Japanese or Chinese skills are a plus.)

- Effective communication and collaboration skill across multiple technical teams and stakeholders.

- Strong problem-solving, analytical, and trouble shooting skills with a solid understanding of root cause analysis methodologies (e.g., 5 Whys, Fishbone, 8D).

- Proficiency in MS Office Suite (Excel, Word, PowerPoint) and related tools.

- Experience with data analysis tools (JMP, Minitab, etc.)

- Strong presentation skills.

- Demonstrate accuracy, clarity, consistency, and thoroughness of work.

BENEFITS

- Full-time, on-site position.

- Occasional overtime may be required to meet deadlines and production schedules.

- Salary Review, 13th month salary, Company performance Bonus.

- Travel Opportunity, Training & Development, Lunch Support, Transportation Support.
