募集要項

Job Description

- Lead and manage quality assurance activities for EMS (Electronics Manufacturing Services) operations.
- Establish, implement, and maintain quality management systems in compliance with ISO 9001, ISO 14000, and IATF 16949 standards.
- Oversee quality audits, corrective actions, and continuous improvement initiatives.
- Collaborate with production and engineering teams to ensure SMT (Surface Mount Technology) processes meet customer requirements.
- Act as the key contact for customer quality issues and drive resolution.
- Provide training and guidance to staff on quality standards and compliance.

Qualification

- Bachelor's degree or higher in Engineering, Science, Management, or a related field.
- Minimum 5 years of experience in QA/QMS within the automotive parts manufacturing or OEM industry.
- Proven experience with quality management systems such as ISO 9001, IATF 16949, ISO 14001, or equivalent.
- At least 3 years of experience in team management, internal auditing, and customer certification processes.
- Strong ability to plan quality strategies and lead team operations effectively.
- Excellent communication and coordination skills, with the ability to work efficiently across departments.
- Minimum 4 years of experience in a managerial-level position.
