募集要項

Brief Job Description:

Join a major life insurer in Tokyo as a Security Engineer specializing in **Identity & Access Management (IAM)**.

You will **lead IAM initiatives**, advise on IT security for applications and infrastructure, and collaborate with **global teams** to protect sensitive information.

The role involves monitoring IAM controls, implementing security improvements, performing risk assessments, and ensuring compliance with relevant regulations.

スキル・資格

Required Experience:

- Minimum 5 years of hands-on experience in information security.
- Knowledge of IT infrastructure, cybersecurity, technology trends, and relevant regulations.
- Ability to prepare reports and present clearly to stakeholders at all levels.

Preferred Experience:

- Experience with business application development or IT infrastructure hardening.
 - Experience with cloud security, data protection, and incident response.
 - Security certifications such as CISSP, CISM, or CISA are a plus.
 - Language: Native or near-native Japanese and intermediate English proficiency.
 - Strong interpersonal and collaboration skills.
 - Ability to manage multiple initiatives in a fast-paced setting.
