募集要項

Based in Japan and reporting to German headquarters, this role operates on a structured five-day schedule, with no routine

Based in Japan and reporting to German headquarters, this role operates on a structured five-day schedule with no routine weekend or holiday maintenance. The team emphasizes focused, high-performance execution during regular business hours to ensure operational stability and reliability.

Why You Should Apply

- Daily collaboration with German headquarters, using both Japanese and English in real operational contexts
- Clearly defined working hours with no routine weekend or holiday maintenance
- Hands-on infrastructure role with ownership across network, server, virtualization, and cloud platforms
- Structured, well-managed environment suitable for professionals who value clarity and stability

Responsibilities:

- Manage and operate server (Linux/Windows), VMware, storage, backup, and cloud environments (M365, Entra ID)
 - Oversee network and security operations
 - Lead incident management, root cause analysis, and vendor coordination
 - Plan and execute change management activities
 - Manage patching, system hardening, and security configurations
 - Coordinate with German HQ and local vendors
- Maintain technical documentation and configuration management

スキル・資格

Required Skills:

- 5+ years of hands-on experience across network, server (Linux/Windows), virtualization (VMware), and cloud environments (M365, Entra ID)
- Strong operational knowledge of infrastructure security, patching, and system hardening
- Experience coordinating incidents, vendors, and change management processes
- Relevant certifications (e.g., Microsoft, VMware, Cisco, or similar) are highly preferred
- Business-level Japanese and English communication skills
- Comfortable working in a collaborative, mid-sized team environment

Company Details:

The financial services division of a major global automotive group offers a wide range of financial products and services, including vehicle financing, leasing, insurance, and fleet management. It provides tailored financial solutions to individual customers and businesses, supporting the group's brands and enhancing the customer experience. With a strong presence in multiple international markets, this division plays a crucial role in driving mobility and growth within the automotive industry.
