募集要項

COMPANY OVERVIEW

A company in the IT solutions industry is hiring for a Manager, Network & Cyber Security position. This role offers the opportunity to work closely with cutting-edge technologies and collaborate with both internal teams and external partners to deliver impactful solutions that meet customer needs.

They are in search of a Manager, Network & Cyber Security

JOB RESPONSIBILITIES

- Lead overall Network & Cyber Security Services in Singapore, ensuring smooth operations and service excellence.
- Manage and mentor engineering teams, including local staff and outsourced/remote resources.
- Oversee business planning, service roadmaps, and long-term portfolio development.
- Own P&L, budgeting, pricing strategies, and profitability management.

- Govern network service delivery across leased lines, IP-VPN/MPLS, L2VPN, Internet, and multi-carrier environments.
- Lead cyber security service design and operations (EDR/MDR, SOC/SOCaaS, vulnerability management, IR, etc.).
- Provide pre-sales support, solution design, and sales enablement across internal stakeholders.
- Serve as the final escalation point for network outages, security incidents, high-risk changes, and complex customer needs.
- Collaborate closely with APAC regional teams and Japan HQ to align standards, offerings, and execution models.
- Establish governance, enforce SLAs/policies, maintain documentation, and drive continuous improvement.

JOB REQUIREMENTS

- 10+ years of experience in network services, IT infrastructure
- Server/ Cloud (Linux, Nutanix) implementation and troubleshooting experience
- Proven leadership in managing technical teams and outsourced/remote engineering resources.
- Strong hands-on expertise in IP-VPN/MPLS, L2/L3 networking, Internet services, and multi-carrier environments.
- Understanding of cyber security fundamentals, managed security services, and incident response.
- Ability to act as a senior engineer during critical troubleshooting or incident escalation.
- Experience in business planning, P&L ownership, cost management, and service profitability analysis.
- Strong communication skills, able to translate technical concepts for sales teams, management, and customers.
- Experience working with regional stakeholders and Japan HQ (highly preferred).
- Business-level English (spoken and written).

Working Location: Singapore
