募集要項

≪Job Description and Benefits of This Position≫

- Design and development of electrical connectors and evaluation for compliance with international standards

- Collaborate with global teams to take a central role in product design
- Overseas business trips and participation in international projects included
- An environment where you can utilize your Japanese and English skills

【About Us】
The ZAMA Group is a full-service supplier and a global market leader in fluid and fuel management systems, precision machined parts, and electrical and electro-mechanical solutions, with a legacy of operational excellence.
We are looking for a motivated Electrical Connector Design Engineer to create and develop electrical connector designs with our team.
Your expertise will be key to our success. Apply now!

【Responsibilities】

- Create and develop electrical connector designs that meet specification requirements.
- Ensure that all designs comply with industry standards and regulations, such as UL, IEC, and RoHS, while maintaining adherence to quality and safety guidelines.
- Lead design reviews and contribute to continuous improvement initiatives to enhance product performance and reduce costs.
- Analyze test data, identify potential risks and recommend design improvements to the development team.
- Work closely, remotely or on site via business trips, with an international engineering and manufacturing team to ensure seamless realization of electrical connectors
- Participate with the Quality Assurance team to ensure compliance with industry standards, such as ISO, IPC, etc.

【Employment Type】
Full-time Employee

【Salary Range】 *For Labor Contract with ZAMA Japan K.K.
JPY8,000,000 – 10,000,000 (Commensurate with experience)

【Work Hours】
As per company regulations

【Work Location Information】
ZAMA Precision Industry Manufacturing Philippines, Inc.
Number of employees: 1,200
Language: English and local dialects

【Holidays and Leave】
As per company regulations

スキル・資格

【Qualifications】

- M.S. in Electrical Engineering
- Minimum of 10 years of proven experience in designing electrical connectors and related components.
- Proven experience in electrical engineering principles and connector technology.
- Experience in connector design for signal and power wire-to-wire and wire-to-board applications.
- Proven successful project completion and product design from concept to production in previous employment.
- Analytical thinking, trouble shooting and problem-solving methodology
- Ability to work in cross-functional team environment
- Willingness to travel to Japan
- Proficiency in CAD software (ZUKEN, Creo, etc.)
- Advanced written and oral communication skills in English. TOEIC 750 and above
