募集要項

COMPANY OVERVIEW

A long-established construction powerhouse with several centuries of heritage, the organisation is recognised for delivering many of Singapore's most iconic buildings and premium developments. Its portfolio spans high-end commercial spaces, luxury hospitality properties, and major landmark projects, reflecting a strong reputation for engineering excellence, architectural quality, and large-scale project execution.

They are in search of an IT Manager

JOB HIGHLIGHTS

- Lead IT strategy and operations across the head office and multiple project sites
- Drive digital transformation and governance initiatives
- Senior leadership role reporting to top management

JOB RESPONSIBILITIES

- Strategic Leadership: Define and execute IT strategy aligned with business objectives and regional HQ directives. Drive digital transformation and modernization initiatives.
- IT Governance & Compliance: Establish and enforce IT policies, SOPs, and security standards in line with regional HQ frameworks. Ensure compliance with regulatory and corporate requirements.
- Infrastructure & Operations: Oversee IT infrastructure and business applications for the head office and project sites. Ensure high availability, security, and scalability of all systems.
- Project Management: Lead IT setup for new project sites, including network, hardware, and software deployment. Manage project timelines, budgets, and vendor coordination.
- Team Leadership: Manage and mentor both outsourced and permanent IT staff. Foster a culture of accountability and continuous improvement.
- Cybersecurity & Risk Management: Implement robust security measures and disaster recovery plans. Conduct regular audits and vulnerability assessments.
- Stakeholder Engagement: Collaborate with senior management and project teams to support business needs. Provide expert advice on emerging technologies and trends.

JOB REQUIREMENTS

- Minimum 10 years of IT experience, with at least 5 years in a senior leadership role
- Bachelor's degree in IT, Computer Science, or related field (Master's preferred)
- Proven expertise in IT infrastructure, networking, business applications, governance, compliance, cybersecurity, and risk management
- Strong leadership and team management skills
- Experience in construction or project-based environments is an advantage
- Excellent communication and stakeholder management skills
- Ability to work under pressure and manage multiple priorities

Working Location: Singapore
