募集要項

Job Title: Assistant Finance Manager / Senior Accountant

Location: Singapore - Central

Your New Company

My client is a Singapore-based technology firm focused on building software and digital applications that support residential community operations and modern estate management.

They develop a widely used condominium management ecosystem that streamlines communication, facility bookings, payments, visitor management, and other estate-wide digital services for residents and management teams.

The company also holds accreditation in communication and security systems integration, strengthening its capabilities in smart-estate infrastructure.

While headquartered in Singapore, its platform is increasingly adopted across developments in the region, contributing to a growing regional presence within the Southeast Asian community-tech space.

Your New Role

- Manage the full set of accounts and prepare reconciliation schedules for the Singapore entity, ensuring accuracy and integrity of financial records.
- Support the annual statutory audit process and assist with tax filings and company secretarial requirements to ensure full regulatory compliance.
- Produce timely monthly financial statements, management reports, and internal analyses to support business decision-making.
- Oversee inventory tracking and documentation to ensure stock levels align with project timelines and comply with audit standards.
- Monitor, update, and maintain financial forecasts, budgets, and cash-flow projections to aid strategic financial planning.
- Work closely with cross-functional teams to enhance reporting quality and drive improvements through process automation and operational efficiencies.
- Strengthen internal controls by reviewing existing processes, improving documentation, and implementing best-practice measures.
- Provide financial insights, analysis, and support for ad-hoc requests as needed.

Key Qualifications for Success

- Minimum 5 years of experience handling a full set of accounts and performing month-end closing, with the ability to independently manage the entire suite of management accounts.
- Bachelor's degree in Accounting or an equivalent discipline.
- CPA / ACCA qualification or equivalent professional certification.
- Strong understanding of accounting and financial reporting principles and best practices.
- Proficient in MacOS, and familiar with Xero, QuickBooks, and other accounting or tax software.
- Excellent communication, analytical, and organizational skills, with the ability to work effectively both independently and within cross-functional teams.
- High level of attention to detail, strong work ethic, and the capacity to manage confidential information with professionalism.
- A proactive mindset and an eagerness to contribute in a dynamic, fast-paced start-up environment.

Ready to Take the Next Step?

Interested applicants may submit their updated CV by clicking **APPLY NOW**. All applications will be reviewed and treated in strict confidence.

Do note that we will only be in touch if your application is shortlisted.
