募集要項

We are seeking a skilled System Engineer to support and enhance our cloud infrastructure on cloud, ensuring stability, security, and high performance across all systems.

Responsibilities

- Manage and maintain cloud-based systems, servers, and infrastructure environments.
- Ensure high availability and reliable operation of all critical services.
- Monitor system and application performance, troubleshoot bottlenecks, and collaborate with developers for improvements.
- Maintain security controls, backups, redundancy plans, and documentation of system architecture.
- Support annual audits, disaster recovery tests, and urgent incidents outside regular hours when required.

Qualifications

- Bachelor's degree in Computer Engineering, Computer Science, or a related field.
- At least 2 years of experience as a System Engineer or in infrastructure operations.
- Hands-on experience managing cloud environments.
- Ability to install, configure, and support operating systems, networks, and development-related software.
- Basic communication skills in English (reading, writing, speaking).

Interested candidate, please submit your most recent resume in English by simply clicking "APPLY NOW"
