募集要項

Position: CNC Engineer

Salary: Maximum 25,000 THB/Month

Job Description:

- Develop, write, and optimize CNC programs (G-code & M-code).
- Set up and operate CNC machines for steel structural components.
- Use CAD/CAM software to create machining programs and tool paths.
- Design and develop jigs and fixtures for CNC machining processes.
- Improve machining processes to reduce cycle time and production costs.
- Conduct Kaizen activities and continuous improvement initiatives.
- Analyze root causes of machining defects and implement corrective actions.
- Coordinate with Production and Engineering teams to ensure on-time delivery.
- Ensure machining quality meets customer specifications.

Qualifications:

- Bachelor's Degree in Mechanical, Industrial Engineering, or related field.
- Minimum 3–5 years of CNC machining experience in steel fabrication or heavy equipment parts.
- Strong knowledge of G-code and M-code programming.

- Proficient in CAD/CAM software (e.g., AutoCAD, SolidWorks, Mastercam or equivalent).
- Experience in jig and fixture design for CNC applications.
- Experience in cost reduction and Kaizen activities.
- Ability to read and interpret technical drawings.
