### 募集要項

Our client is a specialized Japanese trading company focusing on the import, export, and wholesale of industrial machinery, equipment, and electronics. They support their customers by providing technical sales, components, and services for high-credit companies in sectors like semiconductors. Join them now and be a part of an ever growing team!

### Job Descriptions

- Sales activities with existing clients (repeat business)
- Acquiring new project orders
- Supporting clients with specification explanations (application support)
- Handling orders and following up until shipment
- Arranging maintenance when necessary

### Job Requirements

- Min Degree in Engineering field.
- Min 1-3 years of experience in Technical and Sales.
- Knowledge in software or mechanical engineering is an advantage
- Someone who is comfortable with interpersonal communication and client-facing interactions.
