募集要項

You will be working as a project manager (PM) in systems development for the logistics field.
Specifically, you will be responsible for upstream design and overall project management, including system proposals for airline customers, business analysis, requirements definition, customer negotiations, and team communication. You will work together with other members of our global ONE TEAM to advance development.

スキル・資格

[Required qualifications]
・Experience as a PM in system development
・No experience as a PM, but have 5+ years of experience as a system engineer and want to be involved in PM work

[Preferred conditions]
・Experience with WMS (warehouse management system)
・Business knowledge of logistics
・Experience in offshore development
・Experience as an IT architect
