### 募集要項

#### Company Overview

Our client a leading engineering company with a significant global presence. They specialize in a broad range of electrical, mechanical, and telecommunications engineering services for various sectors, including building, industrial, and infrastructure projects. As they continue to drive growth and expansion, they are now seeking a Quantity Surveyor (Electrical), to join their team and contribute to their ongoing success.

#### Key Responsibilities

- Prepare and review comprehensive proposal and budget estimates for new contracts and tenders.
- Develop, implement, and monitor compliance with tender and contract policies and guidelines, ensuring industry best practices.
- Liaise and negotiate effectively with clients, vendors, main contractors, subcontractors, and consultants regarding project requirements and costs.
- Work closely with the tender team to prepare accurate and competitive tender submissions.
- Demonstrate exceptional attention to detail in evaluating quotations, assessing variation orders (VOs), escalations, and abortive work, as well as precise quantity measurement and final account reconciliation.

- Manage all aspects of cost preparation, rate rationalization, and maintain an updated cost data library.
- Oversee contract administration, including progress claim preparation and variation order preparation, through to final account.

#### Key Requirements

- Minimum Diploma in Electrical Engineering or related discipline.
- At least 3 years of relevant working experience, with prior cost estimation experience in a M&E construction environment.
- Strong interpersonal skills, coupled with excellent coordination and communication abilities.
- Demonstrated problem-solving skills with the capacity for critical analysis and creative solution identification.
- High level of initiative, ability to work independently, and meticulous attention to detail.
- Proven ability to work effectively under tight deadlines.
- Well-versed in MS Excel and AutoCAD.
- Familiarity with BIM software such as Revit/Cubicost is preferred.
- Willingness to work at our Tuas project site; transportation pickup available from designated MRT stations.

Apply online or feel free to contact me directly for more information about this opportunity. Due to the high volume of applicants, we regret to inform that only shortlisted candidates will be notified. Thank you for your understanding.
