募集要項

Job Description

- Responsible for managing and coordinating electrical systems including LV/MV, ELV, lighting, and related M&E works to ensure compliance with design intent, standards, and authority

Key Responsibilities

- Review electrical drawings and specifications.
- Coordinate with consultants, subcontractors, and vendors to resolve electrical issues.
- Oversee electrical installation quality and compliance.
- Manage RFI/TQ responses and ensure proper documentation.

- Support testing, commissioning, and handover of electrical systems.
- Ensure statutory compliance for all electrical works.
- Implement Kajima Total Management Systems procedures.

Requirements

- Degree/Diploma in Electrical Engineering.
- 5 to 6 years of working experience in data center, factory and warehouse projects
- Experience in building services, electrical installation, and testing.
- Strong understanding of electrical design and authority requirements.
- Ability to interpret technical drawings.
