### 募集要項

**Position:** System Engineer / Presales Engineer (IT Solutions)

**Location:** Bangkok, Thailand

**Employment Type:** Full-time

JAC is partnering with a leading IT solutions provider to find a System Engineer / Presales Engineer who will handle system delivery (60%) and presales activities (40%) while working closely with partners to support solution design and implementation.

### Key Responsibilities

#### System Engineer (60%)

- Deploy and configure servers, virtualization (VMware/Hyper-V), storage/backup, and basic network services.

- Support cloud (AWS/Azure/GCP) setups, backup/DR, and hybrid integration.
- Perform troubleshooting, performance tuning, documentation, and handover.

Presales (40%)

- Conduct requirement gathering and solution scoping with customers.
- Prepare BOM, SOW, and support proposal development.
- Handle RFP/TOR responses.
- Deliver demos/PoC and present technical solutions.

**Qualifications**

- 2–5 years in system engineering or presales from SI/IT solution environment.
- Knowledge in Windows/Linux, VMware, storage/backup, cloud fundamentals, and networking basics.
- Strong documentation and presentation skills.

**Notice:** By submitting an application for this position, you acknowledge and consent to the disclosure of your personal information to the Privacy Policy and Terms and Conditions, for the purpose of recruitment and candidate evaluation.
