募集要項

Company overview

Our client, a Japanese IT product company, is looking for a Software Engineer to join their team and contribute to various exciting projects.

Job Description

- Develop and maintain cloud service-related software or Windows applications used for MFP (multi-function printer) data processing or IT device management (PC, server, mobile, etc.) on a cloud platform.
- Debug and evaluate MFP-related cloud services/software using actual devices or simulators.
- Deliver high-quality, reliable software that meets technical standards.

Requirements

- Minimum 3 years of experience as a Software Engineer with strong proficiency in Java and JavaScript.
- Experience with web application frameworks; familiarity with Linux and AWS is an advantage.
- English: Intermediate proficiency (spoken, listening, and written).
