募集要項

This role involves performing both manual and automated testing, analyzing defects, and ensuring high product quality through detailed reporting and troubleshooting. You'll design and maintain automation scripts while working in a fast-paced environment that values technical growth, collaboration, and strong communication skills.

Client Details

The employer is a large organization within the Technology & Telecoms industry, known for its commitment to innovation and excellence. The company operates in a collaborative environment and values technical expertise.

Description

- Perform functional testing, log and track defects, and provide detailed reports to ensure product quality.
- Develop, maintain, and troubleshoot automation scripts while triaging automation failures.
- Analyze test results to identify recurring issues, troubleshoot complex scenarios, and recommend improvements.
- Collaborate in a fast-paced environment, communicating findings clearly and working closely with cross-functional

teams.

Job Offer

- Temporary position with the potential for career growth.
- Collaborative and professional work environment.

This role provides a platform to showcase your skills and contribute meaningfully. Apply today to take the next step in your career!

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Serina Miyazono on +81 3 6627 6130.

スキル・資格

- Minimum 3 years of experience in Software Testing, covering both manual and automation practices.
- Strong proficiency in Python or XCTest for automation development and debugging.
- Skilled in using AI tools and writing effective prompts to support testing workflows.
- Excellent English communication skills and the ability to work independently in a fast-paced, collaborative environment.
- Bonus: Experience with mobile, wearable, or home technologies, plus proficiency in Japanese, Korean, or Chinese.

会社説明

The employer is a large organization within the Technology & Telecoms industry, known for its commitment to innovation and excellence. The company operates in a collaborative environment and values technical expertise.
