募集要項

A prominent logistics company in the Indo-China and ASEAN region is looking for a Quality Manager / Sr Engineer. Our client offers integrated one-stop door-to-door logistics for forwarding, transportation, cargo handling and warehousing. They have proudly been positioned as the most cost-effective and complete FTL/LTL service provider in China, Vietnam, Thailand, Malaysia and Singapore. Join them be a part of an ever-growing team.

Job Descriptions

- Drive overall Company quality performance.
- Lead QA processes, oversee the control of industry regulations, and drive continuous improvement initiatives.
- Ensure trouble free and reliable logistics operations.
- Arrange and put into practice Quality standards and performance benchmarks.

- Perform inspections to check if the rules of the industry and the company's guidelines are followed.

Job Requirements

- Min Diploma and Degree in Engineering or any relevant courses.
- Min 5- 8 years of prior working experience in supply chain management, logistics, quality management, or related roles.
- In-depth knowledge of quality metrics, ISO standards and Quality Management System (QMS) processes.
- Excellent communication and interpersonal skills to interface effectively with internal teams, customers and suppliers.
