募集要項

【求人No NJB2365394】

At YETI we believe that time spent outdoors matters more than ever and our gear can make that time extraordinary. When you work here you'll have the opportunity to create exceptional meaningful work and problem solve with innovative team members by your side. Together you'll help our customers get the high quality gear they need to make the most of their adventures. We are BUILT FOR THE WILD . .

The Demand Planner is responsible for the right stock in the right place at the right time by identifying and acting on stock

opportunities and allocating stock to the correct channels and regions. This is a collaborative role reporting into the Head of Merchandising and working closely with the Operations Sales and E commerce teams.

YETI is seeking a highly analytical and data driven Planner who can utilize historical data to forecast future sales and inventory across multiple channels and regions to support our continued growth. A newly created role we're seeking a motivated individual ready to make an impact with a growing brand.

Responsibilities

Allocation replenishment: Forecast replenishment and allocations across direct to consumer wholesale corporate channels and markets.

Inventory Management: Execute plans to ensure we have the right product in the right place and the right time.

Demand Planning: Updating maintaining and submitting our monthly demand plan following YETI processes.

Reporting: Create maintain interpret reports and action based on business requirements.

Responsible for reacting and adjusting to changes in allocation driven by supply and demand and communicating those changes to key stakeholders efficiently to ensure minimal impact.

Identify and implementing robust forecasting capabilities to minimise re work.

Analyse sales trends and historical data to forecast future sales and inventory needs.

Collaborate with Sales and Operations to ensure merchandise assortments align.

Weekly trade reviews across Wholesale/B2B/B2C to identify risks opportunities and actions.

Ensuring high in stocks of core lines through inventory management including accurate line level forecasts.

Monitor sales performance and adjust inventory levels accordingly.

Support cross functionally with Sales E commerce Operations Marketing Logistics Supply Planning and Customization to communicate inventory availability.

Identify and anticipates inventory roadblocks/issues based on data and makes recommendations and/or presents solutions to mitigate risks.
