募集要項

As IT Director, you will lead initiatives across the following three domains:

Information Security & IT Governance

- Define and execute group-wide information security strategy

Internal DX & IT Systems Development

- Strengthen IT infrastructure and collaboration across global offices
- Lead transformation initiatives using emerging technologies like generative AI

Internal IT Operations (with outsourced support)

- Set up IT helpdesk operations and manage IT assets (PCs, networks, etc.)
- Oversee account management and internal IT policy

スキル・資格

Must - Have

- 5+ years of hands-on experience in security and IT systems
- Proven track record in leading IT implementations with strong stakeholder engagement
- Business-level English proficiency (reading, writing, speaking)
- Fluent-level Japanese proficiency or higher (at least N1 or above)
- Bachelor's degree or higher

Nice-to-Have

- DX consulting or digital transformation experience in a business setting
- Experience in building and operating internal IT and security systems
- Experience integrating IT systems across global locations
- Vendor negotiation and management experience
