募集要項

Responsibilities

- Oversee day-to-day activities on the production line, including tasks related to EMS operations.
- Assemble and install electronic components, equipment, and related machinery used in the process.
- Ensure all production steps meet quality requirements and comply with safety guidelines.
- Support quality checks and report any issues or irregularities found during production.
- Coordinate with engineering and logistics teams to keep workflow running smoothly.
- Record production data and participate in process improvement activities.
- Assist with equipment setup, adjustments, and basic troubleshooting when needed.

- Maintain an organized and safe working environment within the production area.

Qualifications

- Bachelor's degree in Electronics Engineering, Electrical Engineering, Mechatronics, Industrial Technology, or related fields.
- Experience in electronics manufacturing or EMS production
- Ability to follow work instructions and maintain accuracy in production tasks
- Strong teamwork and communication skills
- Willingness to work in a start-up environment with flexibility
