募集要項

Position: Engineer

Salary: 20,000 – 30,000THB +/- (Negotiable)

Location: Bangkok

Our client is a well-known Service Provider for energy solutions.

Key Responsibilities of the position:

- Build and maintain strong working relationships with contractors and clients
- Review and evaluate technical specifications for fuel supply systems, piping, and combustion equipment in collaboration with vendors

- Coordinate with vendors to clarify and confirm specifications
- Handle applications, modifications, and updates of DOEB licenses
- Approach new and unfamiliar fields with a positive and proactive mindset
- Oversee projects involving the construction or modification of fuel supply facilities, piping, and combustion equipment

Qualifications

- Education: Bachelor's degree in chemical engineering or mechanical engineering
- Experience: 1 - 2 years in construction company as an engineer
- Strong technical background in reviewing and checking specifications of facilities according to international standards (e.g., ASME)
- Preferred: Background in fuel-related industries or piping construction projects
- Good command of English for daily communication and technical terminology
