募集要項

Job Overview

Our client is a global engineering company specializing in Water/ Wastewater Treatment solutions is currently looking for a Mechanical/ Piping Engineer.

Location: Ho Chi Minh

Job Responsibilities

- Manage and maintain CAD catalogs, drawings, and design specifications to ensure consistency across projects
- Develop 3D piping models and detailed drawings for water and wastewater treatment plants
- Produce piping, pipe rack, tank, isometric, and layout drawings

- Utilize AutoCAD and 3D piping software (Plant 3D, E3D, PDMS) in a BIM 360/ ACC environment
- Support engineering data management using SQL Server
- Develop or apply Python/ VBA scripts to automate repetitive design tasks
- Collaborate with global engineering teams and support other assigned technical tasks

Job Requirements

- Fluent in English
- Bachelor's degree in Mechanical Engineering or related discipline
- Having minimum 2 years of experience in piping or mechanical design for: Water/ Wastewater Treatment Plants; Industrial or Plant Engineering projects.
- Proficient in AutoCAD and at least one 3D piping design software (Plant 3D, E3D, PDMS)
- Solid experience with piping layout, pipe rack, and isometric drawings
- Knowledge of catalog and specification management
- Familiarity with BIM tools; experience with Python, VBA, or SQL is an advantage
