### 募集要項

We are seeking a **UI/UX Designer** to drive the design of multiple rapidly growing products, including Kodamamo. You will craft intuitive interfaces for children, seniors, and global users, working closely with designers, developers, and executives.

You will share responsibilities with existing designers who have experience in graphics, UI/UX, and product management, enhancing overall design quality.

### Key Responsibilities

**Product Design:**

- Design mobile app interfaces (iOS/Android) using Figma
- Create user flows, wireframes, and prototypes
- Build and maintain design systems and UI components

**UX Research:**

- Conduct interviews and usability tests with parents, children, school staff, and seniors
- Analyze app logs and customer service inquiries to identify and solve UX issues

**Global Design:**

- Design bilingual (Japanese/English) UI and consider multi-language support for Taiwan, Indonesia, etc.
- Collaborate with localization teams to optimize international UX

---

**スキル・資格****Must-have:**

- 2+ years of UI/UX design experience for mobile apps or web services
- Practical experience using Figma for UI design and prototyping
- Experience in user research (interviews, usability testing, etc.)
- Business-level English communication skills
- Conversational Japanese JLPT N3-4 level

**Preferred:**

- Startup/venture experience in small teams
- Experience building design systems and component libraries
- Flutter app design experience
- Multi-language UI design experience (English, Chinese, Indonesian, etc.)
- Experience in child, education, senior, or healthcare product design
- Experience using analytics tools (Mixpanel, Amplitude, etc.) for UX improvement

**Ideal Candidate**

- Passionate about **protecting lives and safety through AI**
- Strives for **both beautiful UI and seamless UX**
- Can quickly prototype, gather feedback, and iterate
- Empathetic towards diverse user groups (children, seniors, international users)
- Thrives in ambiguous environments and can build processes proactively
- Curious and confident in using English and exploring new domains

---
