募集要項

This role is a Technical Product Manager responsible for maximising the value of an API platform.

You will lead technical decision-making and stakeholder collaboration to drive sustainable product growth.

Client Details

The client operates a large-scale digital platform that connects a diverse ecosystem of merchants and partners.

By expanding and improving external and internal APIs, the organisation continuously enhances its platform value.

Description

- Define product vision and strategy for the API platform and open API programme
- Create and maintain API specifications, including contracts and non-functional requirements such as security,

- availability, and performance
- Organise existing initiatives and define future product tasks
- Develop and execute product roadmaps
- Manage and prioritise the product backlog
- Communicate with internal and external API users and incorporate feedback into improvements
- Conduct competitor and market research
- Define KPIs, analyse performance, and drive operational improvements
- Coordinate with development, project, security, and other related teams

Job Offer

- High level of involvement in technical and product decision-making
- Working hours: 9:00 AM - 5:30 PM
- Remote work available
- Free meals at the in-house cafeteria

If you're ready to take the next step in your career as a PDM professional, apply today to join this exciting opportunity in Tokyo!

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Krisztina Szokolai on +81366276101.

スキル・資格

- 3+ years of experience in web service product management
- Strong understanding of API design principles and REST best practices
- Ability to read and interpret technical documentation, including API specifications and architecture diagrams
- Proven experience writing clear, actionable requirements for engineering teams
- Ability to identify operational issues and lead service improvements
- Business-level proficiency in both English and Japanese
